Badingham playschool was opened in 1973 and provides quality, affordable childcare for local children. We have high quality equipment and resources that encourage creativity through craft, music and dance and develop basic literacy and numeracy. Our staff have qualifications and experience to build strong relationships with the children and we have a high staff to child ratio to give each child the care and attention they need.

We believe that each child is an individual and will grow and develop at their own pace. Children learn through the opportunities to play provided by our carefully planned curriculum. They gain knowledge, skills and understanding through fun and exciting experiences in a safe environment. We feel it is important for young children to interact well with adults and other children, to communicate and express themselves confidently. We hold the 'Every Child A Talker Standard' which is a Quality Award held by a few settings in Suffolk.

We aim to work in partnership with parents to provide the best for each child.

Parents are welcome to stay as long as they wish and share activities. We will respect and value your ideas and views. It is important for your child to see you relaxed in the setting to build their sense of security.

Music, Woodland Nursery, creative dance and water confidence sessions are included in our session fees.

Each child's needs are met during the day through free-play, snack time, adult led activities, lunch-time, quiet times and outdoor play. Routine is important to help the children understand time and build familiarity, security and stability however we always remain flexible to take opportunities for unplanned activities e.g. looking at a rainbow, exploring in the snow or walking the village footpaths on sunny afternoons.
